I own a laptop (MacBook Pro)

Objective

Detail-oriented Computer Science major (3.9 GPA) currently attending Hunter College. Aiming to leverage an existing knowledge of web/software development and programming skills to successfully occupy the technical developer/designer role at your company

Experience

July 2019 – August 2019

Web Designer/Developer • Communitas America

- Collaborated with a team of 4 to build and modernize websites for established South Bronx non-profit organizations that serve over 1000 clients per year. Actively engaged with clients and provided weekly correspondence (email, in-person meetings, video calls)
- Provided consultation for two emerging non-profits with anticipated revenue of \$3 million

July 2019 – August 2019

Web Design Teacher • DreamYard

- Directed a classroom of 17 students, ages 14-18, on the fundamentals of web design/development including wireframing, color scheme, basic HTML, responsive design, etc. Students utilized this knowledge to create their own websites for their entrepreneurship program
- Was responsible for creating an entire structured curriculum, complete with interactive Google Slides and engaging activities

May 2019 – June 2019

Cyber Threat Analyst • Cyber Security Intern • iQ4

- Analyzed the depth of identifying, detecting, and protecting against cyber-attacks in the theft of intellectual property and espionage
